All Managers								
Create Manager								

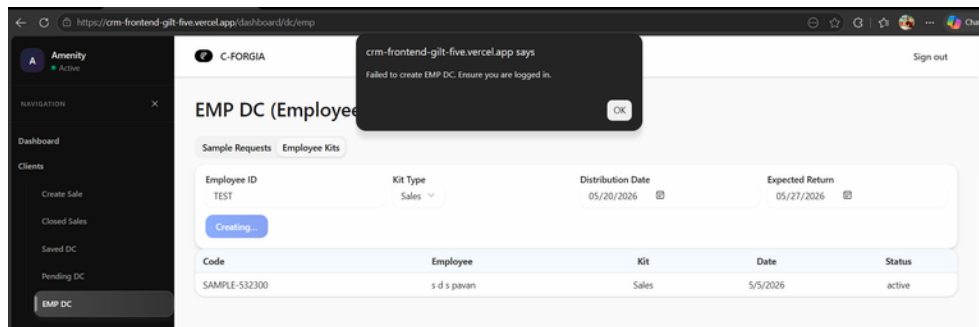

The left side navigation moves down along with the right side content which is making it difficult to again go to the same clients entity

There is no proper format when i try to print the DC its difficult to read and understnd

Issues:

Clients → EMP DC

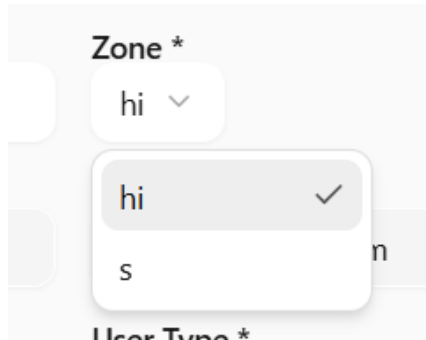

Unable to create a emp dc
asking to login eventhough i am logged in
i tried 2-3 times but not possible

Users/Employee

Issues:

1.Add Employee->Zone dropdown

Zone *

hi ▼

hi ✓

s

2.Add employee form asking for Phone as not imp field and Mobile Number as req field,but showing Phone as a field in the list

Employees List

Search name/email/phone/cluster [Refresh](#)

Name	Email	Phone	Role	Department	Cluster	Action
Keerthi	keerthi@gmail.com	0	Manager	Sales	Valachery	Edit Reset Password
Aishwarya	codechamp@vedutech.com	0	Trainer	-	NA	Edit Reset Password
s d s pavan	simhadri143143@gmail.com	0	Executive	-	n	Edit Reset Password
Shri yasarwi	amenityforge10@gmail.com	0	Executive	-	hi	Edit Reset Password
XYZ	sample@gmail.com	0	Trainer	-	HYDERABAD	Edit Reset Password
kaaashvi	kaashvi@gmail.com	0	Executive Manager	-	-	Edit Reset Password

3.Active and Inactive status lack

Inactive Employees List

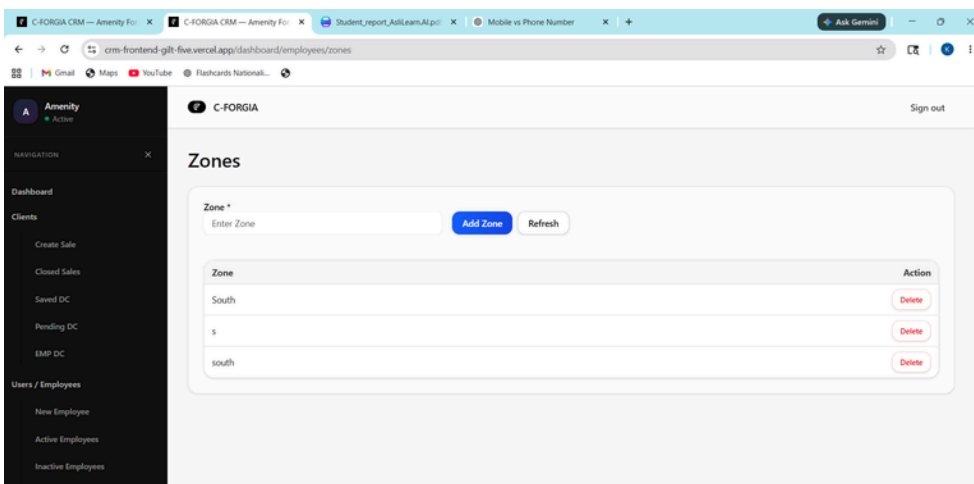

Search name/email/phone [Refresh](#)

Name	Email	Phone	Role	Department
No inactive employees				

4.No correct pending leave management

Manager need to approve the leave to the assigned employee but ,there is no possibility to assign employee

5.zone addition accepting the duplicates

6.Cluster addition accepting duplicates

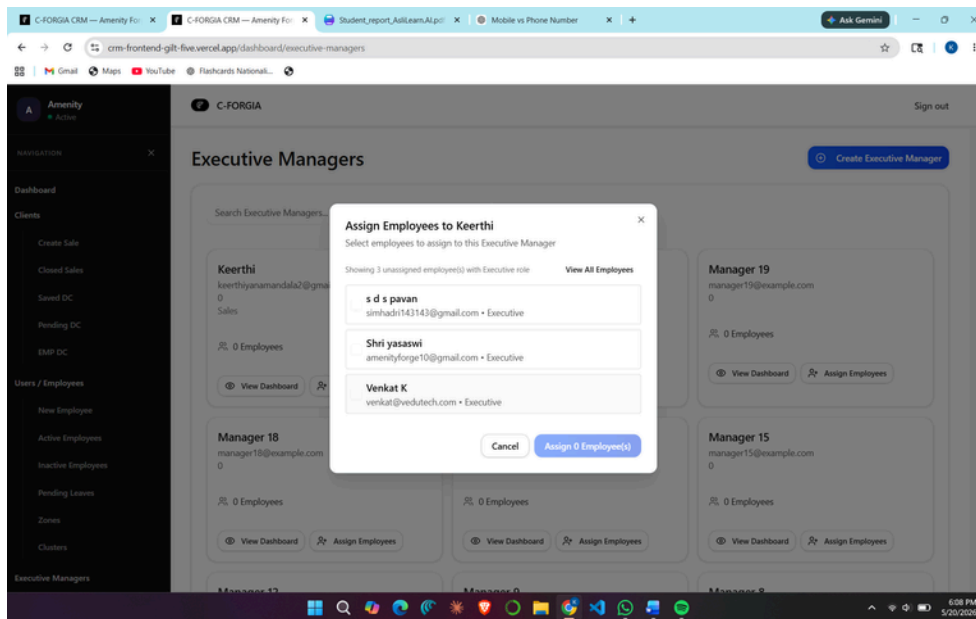

Recommendations:

1.save the zone automatically by pincode addressing which reduces manual typing .

2.check the mobile number inconsistency ,use req field in Employee list or use both phone and mobile

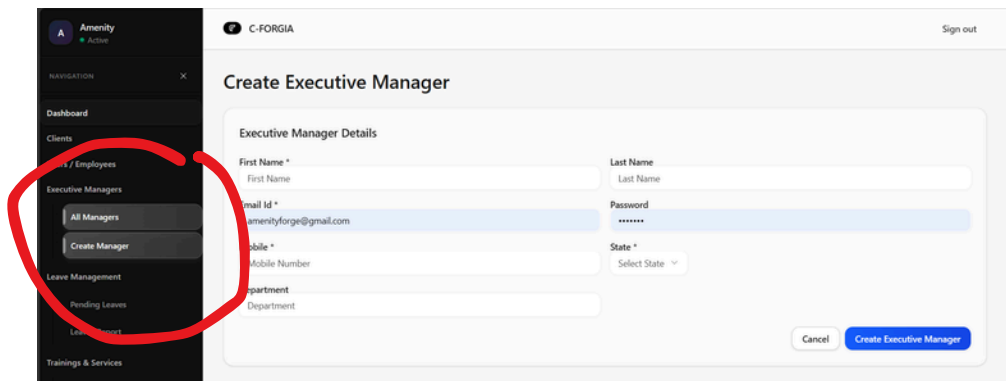

3.Address actual staus workflow based on pending leaves

4.check the flow correctly to track the staus based on leaves of the employee,implement the assignmnet of employee to the managers

5. no need of zone and cluster entities separately
 ,implement Pincode → City → District → State → Zone
 → Cluster automatic detection or set the dropdowns
 of them with duplicate detection

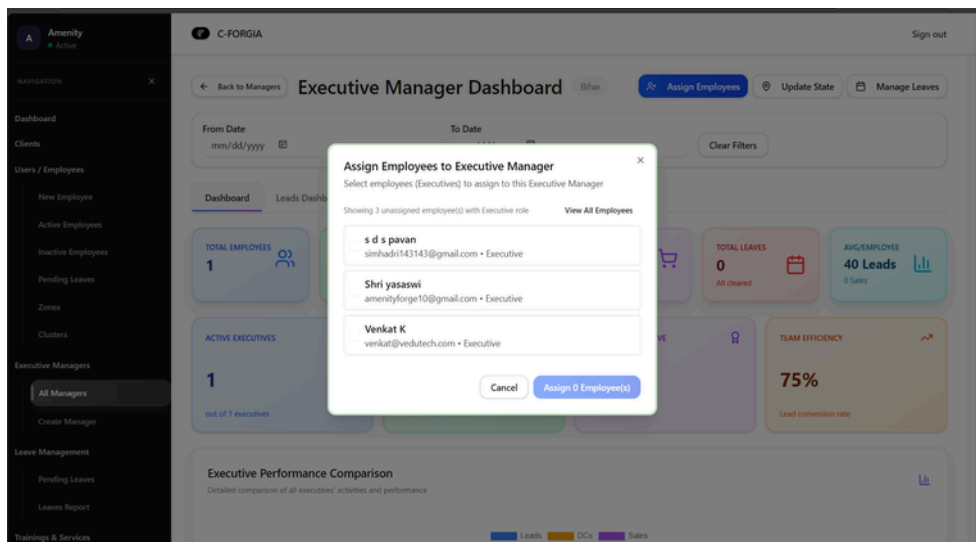

Executive Managers

In navigation of entities evethogh i select one entity both tht “All Managers and Create Manager “ are getting selected

Issues:

Executive Managers→ All Managers

In Kaashvi dashboard(Manager)\

I cant select the unassigned employees to assign to her
selection is not possible

Issues:

Executive Managers → Create Manager

The screenshot shows the 'Create Executive Manager' form in the C-FORGIA system. The form includes the following fields:

- First Name * (Ex_Manager_1)
- Last Name * (Ex_Manager_1)
- Email Id * (exmanager1@gmail.com)
- Mobile * (9876543210)
- Password * (password)
- State * (Chandigarh)
- Department (Department)

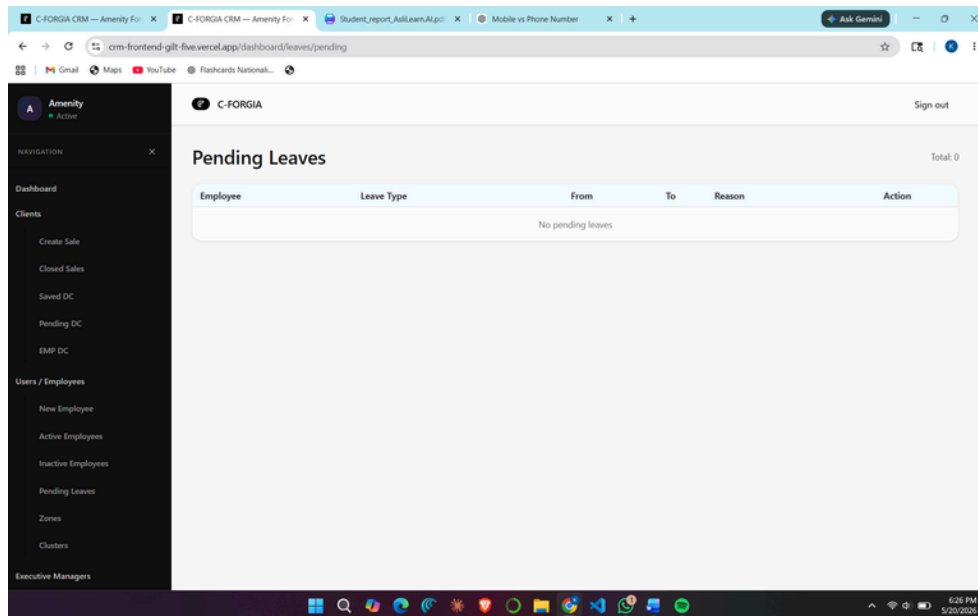

A red circle highlights the State dropdown menu, which is open and shows a list of Indian states. The 'Create Executive Manager' button is visible at the bottom right of the form.

There are 31 states present !

also its good if we add a feature where we can type 2 chars of the state and can get the state highlighted

Leave Management

1.leave management is not working

Recommendations

- 1.Implement the assigning of employee to the manager ,So that managers can approve/reject the leave of employee ,based on that the status of employee need to be shown (active/inactive).
- 2.by the above step list of pending leaves and leave report will work correctly

Trainings and services
